## COMMUNITY

Koch companies and employees provide time, talent, and contributions to add value in our communities. We focus on programs that enable people to improve their lives, find fulfillment and realize their full potential. Here are some examples of Koch's community support in Florida:

In 2014, Georgia-Pacific donated **\$15,000 to Palatka's Water Works Environmental Education Center** that will be used to restore a portion of the area to a **freshwater wetland** with native plants, which hasn't been seen in the community since the 1930s.

In 2015, Georgia-Pacific's pulp and paper operation in Palatka helped develop the **St. Johns River Center: Adventures in a Wetlands Ecosystem**. Geared toward students, the center is a fun, interactive space for learning about the ecology of the St. Johns River and the wetlands area.

## SAFETY AND ENVIRONMENT

Koch companies are committed to operating businesses in a manner that protects the health and safety of employees and communities, as well as the environment, by reducing waste and increasing efficiency. Here are some examples in Florida:

In February 2015, Georgia-Pacific announced plans to invest \$70 million in its Palatka Mill to make improvements that will **reduce water usage by more than 30 percent**. The improvements will also reduce GHG emissions and energy usage.

Georgia-Pacific's facility in Palatka is **STAR-certified in OSHA's Voluntary Protection Programs** for outstanding safety performance.
