COMMUNITY

Koch companies and employees provide time, talent, and contributions to add value in our communities. We focus on programs that enable people to improve their lives, find fulfillment and realize their full potential. Here are a few examples of Koch's community support in Wisconsin:

In Green Bay, Georgia-Pacific donated nearly **\$200,000** in soap and dispensers to the **Green Bay Area Public School District** to help prevent illness in area schools.

In 2014, Koch Pipeline donated approximately **\$50,000** in hazardous material equipment to the **Fond du Lac Fire Department** that will help support its emergency response efforts.

SAFETY AND ENVIRONMENT

Koch companies are committed to operating businesses in a manner that protects the health and safety of employees and communities, as well as the environment by reducing waste and increasing efficiency. Here are some examples in Wisconsin:

Flint Hills Resources' terminals group received the **Safety Excellence Award** from the International Liquid Terminals Association in 2009, 2011, 2012, 2014 and 2015 for its exceptional safety record across its terminal facilities.

Two Koch company sites in Wisconsin currently hold **STAR certification** in the **Occupational Safety and Health Administration's Voluntary Protection Programs**: The C. Reiss Coal Co. (Green Bay) and Georgia-Pacific (Green Bay and Broadway mill).

In 2015, Georgia-Pacific's Green Bay Broadway mill installed a new natural gas boiler that will help **reduce emissions**.
